Students can access the following databases at school and from home. A login and password is required for at home use. This login and password has been shared with students. Please check your child's agenda for this information.

The following database is a great resource designed for kindergarten through 2nd grade students. This database has multiple pages of text and students can select an audio option so the text is read aloud.

The following database is a great resource for 3rd-5th grade students. This database opens to a page with video clips, photographs, and a brief biography. Click on VIEW MORE to see the full text biography. Within the full text biography students can select an audio option so the text is read aloud.

Note: If your student is interested in participating in the essay contest and is not familiar with the Media Services Database, they are welcome to drop by the Media Center with any questions they may have.
